PROFESSIONAL SUMMARY

Experienced Frontend Developer with 5+ years of expertise in building and maintaining scalable, performant web applications. Proficient in modern JavaScript frameworks like React, Next.js, and Vue.js, with strong experience in Typescript, Node.js, and state management solutions. Familiar with backend integration and relational databases. Passionate about delivering clean, maintainable code, with a focus on functional programming paradigms and scalable solutions.

SKILLS

- Frontend Development: React.js (3+ years), Next.js, Vue.js, Redux Toolkit, CSS (including TailwindCSS), SSR (Server-Side Rendering)
- Backend Technologies: Node.js, PHP, RESTful APIs, Prisma, Firebase (minimal experience)
- Programming Languages: Typescript, JavaScript, PHP
- Database Systems: MySQL, PostgreSQL (basic experience), Prisma, SQL queries optimization
- Testing Frameworks: Jest, Cypress, Storybook
- Version Control: Git
- Other Technologies: WebSockets, minimal exposure to Web3 infrastructure, experience in web application integration with Telegram

EXPERIENCE

June 2023 - Now

Frontend Developer

Paystride / Nigeria, Portharcourt

- Lead the development of complex fintech web applications using React and Typescript.
- Collaborated with backend developers and designers to deliver highly interactive user experiences.
- Developed and maintained reusable components using functional programming paradigms and modular testing.
- Integrated APIs, including WebSockets, for real-time communication features.
- Utilized Redux Toolkit for state management, optimizing code reusability and application efficiency.
- Worked in agile teams to plan, develop, and deliver web applications, improving productivity by 20%.

- Optimized performance and user experience through server-side rendering (SSR) using Next.js.
- Assisted in migrating existing features and apps to Next.js (app router) for enhanced performance.
- Contributed to e2e tests with Cypress and unit tests with Jest to ensure stable, bug-free releases.
- Styled the application using Tailwind CSS to create responsive and visually appealing UIs.
- Managed code versioning using Git and participated in regular code reviews.

★ January 2021 - June 2023

Full-Stack Developer

Ikonerx / Nigeria, Portharcourt

- Developed and maintained web applications using React, Vue.js, and Node.js.
- Created robust backend solutions with Node.js and PHP, integrating with MySQL and optimizing complex SQL queries.
- Built, optimized, and maintained RESTful APIs for the integration between frontend and backend systems.
- Migrated database schemas using Prisma, ensuring smooth upgrades and compatibility.
- Collaborated with cross-functional teams to develop web solutions for clients in the financial and e-commerce sectors.
- Gained experience in Firebase for database and authentication features in specific projects.

EDUCATION

★ 2015 - 2020

B.sc Electrical Engineering

Rivers State University of Science and Technology / Nigeria, Portharcourt

PROJECTS

★ -

Fintech Dashboard Application

- Built a fintech platform with real-time data visualization using React, Typescript, Redux Toolkit, and WebSockets.
- Worked closely with the design team to implement features adhering to SSR for improved SEO and performance using Next.js.

-

E-commerce Website

- Developed a fully functional e-commerce website using Vue.js, Node.js, and MySQL.
- Integrated RESTful APIs for seamless backend communication, and implemented dynamic and responsive UIs.

TECHNICAL COMPETENCIES

-

- Functional Programming: Experienced in writing modular, functional, and clean code in React and Typescript.
- State Management: Expert in using Redux Toolkit, including RTK Query for efficient API interaction.
- Testing: Proficient in unit testing and e2e testing using Jest and Cypress to ensure application stability.
- Server-Side Rendering: Hands-on experience with Next.js for SSR, improving page load speed and SEO ranking.
- SQL Optimization: Skilled in writing and optimizing complex SQL queries to improve backend efficiency.

SOFT SKILLS

-

- Team Collaboration: Experience working within agile teams, communicating effectively with team members, and contributing to the project success.
- Problem Solving: Strong analytical skills, with a proven track record of solving challenging technical issues efficiently.
- Communication: Excellent verbal and written communication skills, proficient in translating technical concepts for non-technical stakeholders.
